Dear Meeting Participant:

Welcome to the 2019 Annual Meeting of the International Maternal Pediatric Adolescent AIDS Clinical Trials (IMPAACT) Network! We are honored for you to join us during this exciting time as we continue to study novel approaches to reduce HIV infection and comorbidities and inform public health policy. You are invited to attend the plenary session and scientific committee meetings to learn more about the Network's innovative research and future scientific agenda. Dr. Anthony Fauci, Director of the National Institute of Allergy and Infectious Diseases, and Dr. Martina Penazzato, Pediatric Lead of the World Health Organization's HIV Department, will be two of the exciting speakers at the plenary session on Wednesday.

We invite you to also attend the evening poster session and welcome reception on Wednesday at 6:00 pm to interact with colleagues and learn more about the important work of IMPAACT teams and investigators around the world.

The Annual Meeting also includes sessions organized by the IMPAACT Community Advisory Board to provide updates on current studies, the Network's future research agenda, community engagement strategies and skills-building activities. There will also be many meetings and training opportunities throughout the week on important topics for protocol teams and sites.

Below you will find important information and resources to support you during the Meeting.

Internet access: Complimentary Wi-Fi will be provided in meeting rooms and the hotel each day. Please see the next page for further details on connecting to Wi-Fi.

Meeting materials and agendas: To receive up-to-date information during the meeting, we encourage you to download the free IMPAACT Network mobile app available in the iOS App Store or Google Play store.
