Welcome to the 2025 IMPAACT Annual Meeting

Dear Meeting Participants:

We are delighted to welcome you to this year's International Maternal Pediatric Adolescent AIDS Clinical Trials Network (IMPAACT) Annual Meeting! Your presence and participation, albeit virtually, are what make this gathering an invaluable opportunity for collaboration, learning, and advancing our shared mission to improve the health and well-being of pregnant women, infants, children and adolescents in the U.S. and worldwide.

This year has brought unexpected challenges to our Network and partners. We wish to recognize and commend the resilience and dedication of site investigators and staff, our community partners, protocol teams and other network members. Your work remains critically important, and your continued commitment to our mission is deeply appreciated.

This Annual Meeting is filled with sessions that cover some of the most critical areas in pediatric and pregnancy research, in individuals and communities affected by HIV and TB. We are looking forward to the Scientific Committee presentations to learn more about the Network's current research portfolio and future scientific priorities, and hearing updates on several studies including, IMPAACT 2016, 2023, and 2036. We will have presentations on key topics, including the pediatric HIV epidemic, long-acting therapeutics for pregnancy, and a panel discussion on the implications of reduced U.S. government funding for HIV programs and research. We look forward to hearing from Dr. Carl Dieffenbach, who will provide updates from the Division of AIDS.

During the first two days, the Community Session will spotlight critical issues and priorities impacting our communities. We will also showcase presentations from four of our early career investigators. These talented researchers represent the future of our field, and their work highlights the innovative approaches and fresh perspectives that are driving our collective efforts forward. Additional presentations will take place throughout the meeting, and we thank our speakers and moderators for providing opportunities to learn about and discuss today's most-pressing issues.

Meeting materials and agendas: Please visit the Attendee Hub to review speakers, agendas, and event details. A recording of the Annual Meeting will be available soon after the meeting concludes.

Questions: For questions, please email IMPAACTannualmeeting@fhi360.org.

We look forward to a productive and inspiring 2025 IMPAACT Annual Meeting.

Sincerely,

Sharon Nachman, MD
