LDMS Training

The LDMS Training Team offers recorded introductory training and a proficiency exam via www.ldms.org for your on-demand learning needs. Our [YouTube Channel](#) offers full introductory training, as well as module-based recordings.

Quarterly LDMS Introductory Training webinars are also offered, with the next series scheduled to take place in December:

Administration/Specimen Management: December 10th (10am—11:30am ET)

Storage: December 11, 2025 (10am—11am ET)

Shipping/Reports: December 12, 2025 (10am—11am ET)

Registration is required and must be completed at least 24 hours in advance of the scheduled session:

DMC Virtual Introductory Workshop

Page 2

A DMC Virtual Introductory Workshop has been scheduled for October 28th–29th (9am–3pm ET). This training is designed for clinical site staff that are new to the ACTG and IMPAACT networks.

The agenda includes the following topics:

- *Who We Are*
- *DMC Portal Website Highlights*
- *Study Enrollment for ACTG & IMPAACT*
- *Medidata Rave Overview*
- *Rave Forms Overview*
- *Medical Coding Overview*
- *Rave eCRFs and Grading Laboratory Toxicities*
- *Adverse Event Reporting*
- *Rave Reports*
- *Introduction to JReview*
- *TJoin*
- *Rave Metrics*
- *LDMS Overview*

If you are interested and available to participate, please register via the following link (by Friday, October 24th): [October Workshop Registration](#)

Recorded versions of the workshop content are also available on the DMC Virtual Learning Room for on-demand learning: *Frontier Science Portal > Site Support > DMC Virtual Learning Room*

Employee Spotlight: Ian Wetzel— Technical Writer

Page 3

Where are you from?

I am from Saratoga Springs, New York.

What is your education?

I earned a BA in English from SUNY Fredonia.

How long have you worked at Frontier Science?

I have been at Frontier Science for 6.5 years.

What does a typical day for you at Frontier Science look like?

I don't really have a typical day; given that I work with so many departments, I find that what I do often changes on a day-to-day basis.

What is your favorite part about working at Frontier Science?

Everyone at Frontier Science is so helpful and always willing to take time out of their day to assist me or explain something to me when I need help.

What is your greatest work-related accomplishment of the past year?

With the assistance of UB and CPQA staff, I created a new eLearning, a refresher version of the CPQA Clinical Pharmacology Study Conduct Tutorial, intended to be taken by lab and site staff working with pharmacology data.

What is the best part of your job?

I really enjoy the variety of work I get to do. All of the different projects I assist with often require different work, which keeps me from ever feeling bored!

What are your passions/interests outside of the workplace?

I enjoy skiing, tennis, and running.

What would people be surprised to know about you?

People are often surprised when I tell them that I was homeschooled until I was 12 years old.

What was the last book you read?

Atomic Habits by James Clear
