Site Data Management Reports—Upcoming Changes

Beginning in **November 2026**, the monthly Site Data Management Reports will no longer be circulated to sites via email. Site data will then be accessed via an interactive data visualization on the Frontier Science Portal. In advance of this milestone, please work with Frontier Science User Support to ensure that you have a portal account and the appropriate access level to see the reports.

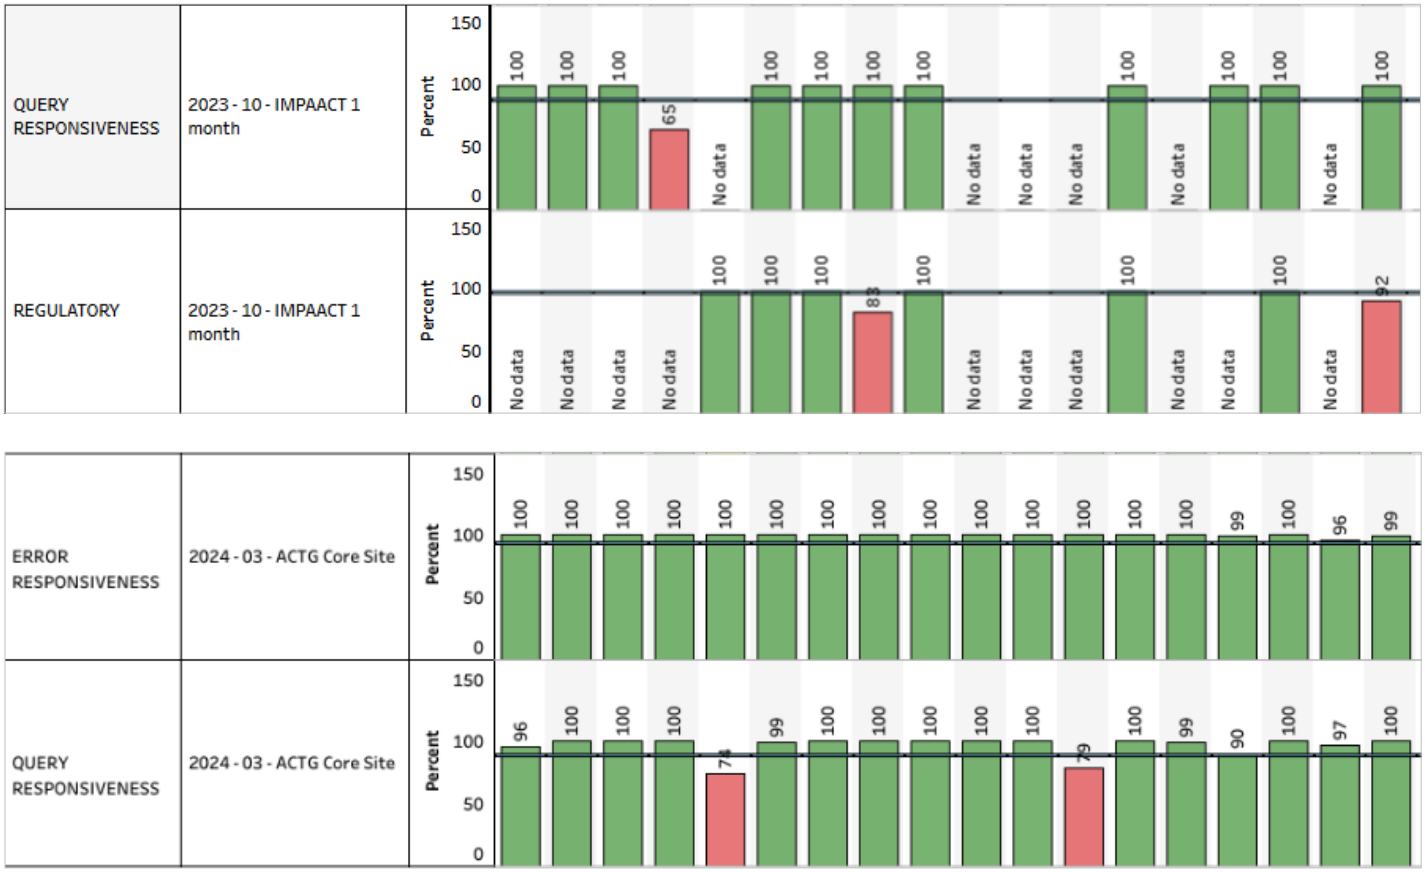

Continued on page 2

Site Data Management Reports—Upcoming Changes, cont'd

The Monthly Site Data Management Reports interactive data visualization is now available on the Frontier Science Portal under the respective network tab. The visualization can be filtered by evaluation metric, score, and reporting period to view site progress over time. A robust user manual is available to guide sites on how to use the data visualization.

Data Visualizations
ACTG Accrual and Retention
ACTG Monthly SDM Reports (New)

Data Visualizations

IMPAACT Monthly SDM Reports (New)

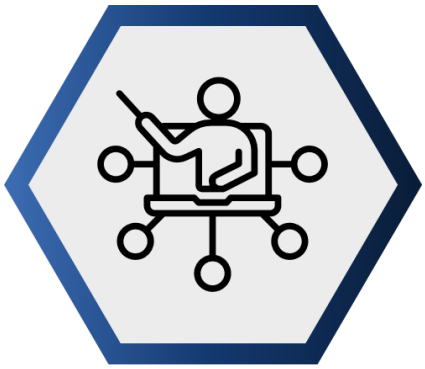

DMC Virtual Introductory Workshop

A DMC Virtual Introductory Workshop has been scheduled for **October 21-22, 2026** (9am—3pm ET). This training is designed for clinical site staff that are new to the ACTG and IMPAACT networks.

The agenda includes the following topics:

- *Who We Are*
- *DMC Portal Website Highlights*
- *Study Enrollment for ACTG & IMPAACT*
- *Medidata Rave Overview*
- *Rave Forms Overview*
- *Medical Coding Overview*
- *Rave eCRFs and Grading Laboratory Toxicities*
- *Adverse Event Reporting*
- *Rave Reports*
- *TJoin*
- *Rave Metrics*
- *LDMS Overview*

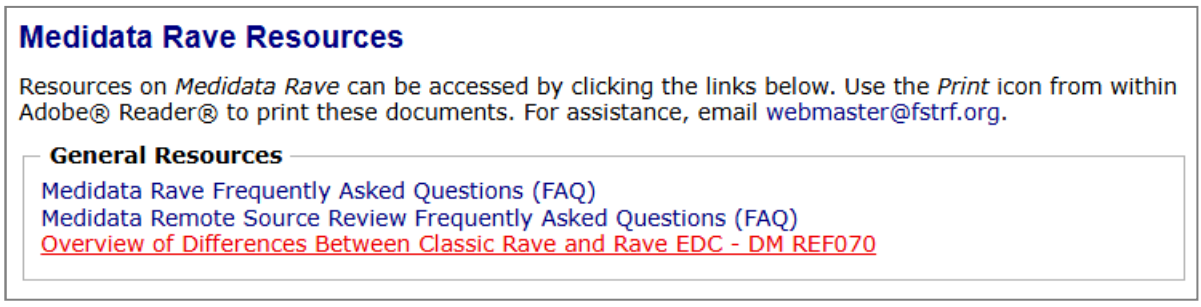

If you are interested and available to participate, please register via the following link:
October Introductory Workshop Registration

Recorded versions of the workshop content are also available on the DMC Virtual Learning Room for on-demand learning: *Frontier Science Portal > Site Support > DMC Virtual Learning Room*

Classic Rave vs. Rave EDC

The Medidata Rave Resources page, available under the Site Support Category on the Frontier Science Portal, hosts a helpful reference to aid in understanding the differences between Classic Rave and Rave EDC. Items outlined in the reference include Getting Started in Rave EDC, the User Interface, Navigation, Patient Page, Tasks and Queries, and Data Entry and Editing.

Employee Spotlight: Kaitlin Ange — ACTG Protocol Data Manager

Where are you from?

Batavia, New York.

What is your education?

I have a B.S. in Public Health and Data Analysis from Nazareth University and M.S. in Epidemiology from the University at Buffalo.

What does a typical day for you at Frontier Science look like?

My days can look very different. I am usually responding to queries, reviewing data, attending meetings, and assisting other Protocol Data Managers.

What is your favorite part about working at Frontier Science?

I really like the people of Frontier Science. They are all very kind and willing to help whenever they can.

***What is your greatest work*-related accomplishment of the past year?**

Working on opening A5414 has been a great success, as we are getting closer to the finish line to opening to accrual. It is very satisfying seeing it all come together.

What are your passions/interests outside of the workplace?

I love arts and crafts, particularly crochet. I have been working on new patterns with intricate designs, that are very satisfying when they are completed. When I have free time, I really enjoy hunting at local thrift stores and consignment shops. I've found some very cool items to add to my collection. I also love going to the park with my fiancé to get fresh air. I bring my book to read, while he goes fishing. It's very helpful to reset and let stress go!

What is the best part of your job?

Being able to contribute to scientific research is the best part of my job. It is something that I am extremely proud of.

What would people be surprised to know about you?

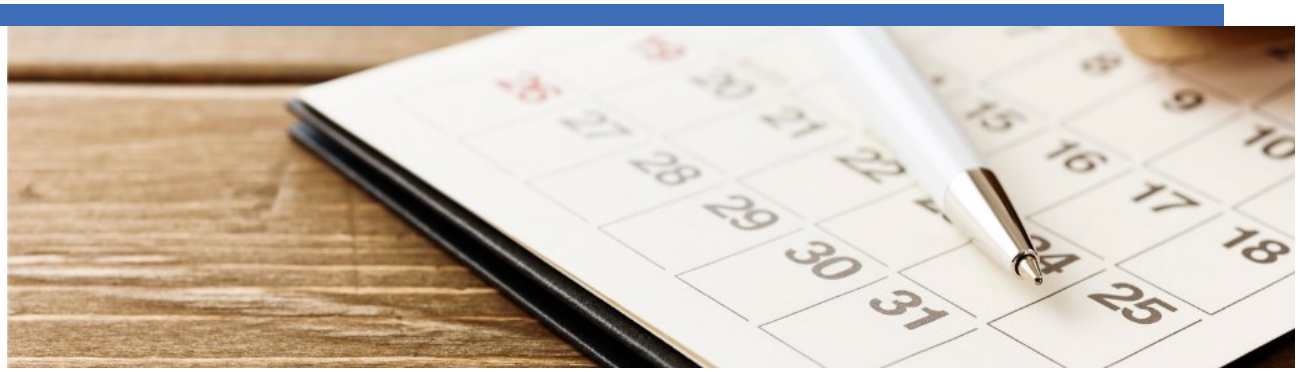

I was on the Track and Field team for Nazareth University as a thrower. Hammer throw was my favorite!

What was the last book you read?

I am currently reading A Game of Thrones series and I just finished book 2. It is so good!
